Pick-Up Reacher

A unique lightweight, robust and wear resistant reacher. Ideal for retrieving or reaching a wide variety of items in the home, garden or out shopping. Available in four lengths, with or without optional extras.

Features

A Twin Gripping Jaws
The jaws have sculptured liners which give an excellent grip. The Pick-Up is operated by a wire not a cord eliminating fraying or stretching.

B Magnetic Head
There is a magnet attached to the jaw which allows easy retrieval of pins, paper clips and other small ferrous items.

C Trigger Design
The trigger is designed for comfort and is large and roomy to allow use of all fingers. The short trigger distance is ideal for stiff, arthritic fingers. The trigger projects through the top of the handle to allow it to be squeezed in the conventional manner, or pushed using the palm of the hand.

D Rotatable Head/Stick Clip
The head can easily rotate to suit individual tasks. The Pick-Up is supplied with a removable stick clip, allowing it to be clipped on to wheelchairs and walking frames etc.

Litter Picker

No more bending or reaching into awkward spaces. This is a value for money version of the Standard Pick-Up (above), that is hygienic and effective for the user.
