

Foot: Performance Insoles

Sorbothane Performance Insoles

We're always a step ahead...

Our unique world leading technology is now even more advanced to give maximum performance with every impact.

- Unrivalled shock absorption
- 100% effective with every stride
- Up to 30% lighter
- Nano silver antibacterial technology for maximum comfort
- New cutting edge pack design

Medical professionals recommend Sorbothane.

Sorbothane insoles can help limit the trauma caused to a body during exercise, such as back problems, joint pain, tendonitis, fatigue fractures and knee pain. They help prevent and re-occurrence of old injuries and offer unrivalled comfort.

Shockwaves are created every time your feet strike the ground, causing damage to joints, muscles, ligaments and tendons.

Sorbothane's unique visco-elastic material mimics the characteristics of human flesh, and at the moment of impact changes shape to disperse shockwaves sideways.

Foot: Performance Insoles

1) Single Strike Shock Stopper

Ideal application

Ideally suited for **low** shock absorption sport & activities

Features & benefits

- Ideal for activities where the heel is subjected to impact shock
- Suitable for all sports footwear
- Replaces existing insole
- Anti-bacterial

Sold as a pair.

091541515	Shoe size 36-38
091541523	Shoe size 39-41
091541531	Shoe size 42-43
091541549	Shoe size 44-46

2) Double Strike Shock Stopper

Ideal application

Ideally suited for **medium** shock absorption sport & activities

Features & benefits

- Ideal for activities where both the forefoot and heel are subjected to impact shock
- Suitable for all sports footwear
- Replaces existing insole
- Anti-bacterial

Sold as a pair.

021873+Size 1-7 (see shoe size table below)

Foot: Performance Insoles

Sorbo-Pro Total Control

Ideal application

Ideally suited for **maximum** shock absorption sport & activities

Features & benefits

- Pronation control insoles with Sorbothane shock impact protection
- Suitable for all sports footwear
- Replaces existing insole
- Trim to fit lines
- Anti-bacterial

Sorbothane Reactor Pads

Highly-responsive, technical forefoot compound inlaid to complement your foot's natural energy return during 'toe-off'.

Sorbothane Impact Protection

Sorbothane's unique shock absorber compound contains a unique molecular structure that gives sustained cushioning with impact protection and unrivalled comfort.

Sorbothane Biofit Technology

Foot-related pain can affect the way you run, walk and stand, which can often lead to pain in your ankles, knees, hips and back. When your foundation is correctly supported, aligned and cushioned, it starts a chain reaction of pain relief throughout your entire body. Sorbo-Pro's carefully crafted insole geometry is central to achieving its biomechanical aim. The heel holds the heel in position after the foot hits the ground and the stabilising arch cradles the bones of the arch of the foot to reduce excessive foot pronation.

Sorbothane Total Control Topsheet

Sorbothane's total control anti-bacterial top system contains advanced nano silver technology to wick away moisture and provide maximum comfort.

Sold as a pair.

021881+Size 1-7 (see shoe size table below)						
Shoe size						
1	2	3	4	5	6	7
35-37	38-40	41	42	43	44-45	46-48

Foot: Performance Insoles

1) Cush 'N' Step

Replacement comfort insoles

Ideal application

Ideally suited for **all** types of leisure or everyday footwear

Features & benefits

- Developed using Sorbothane technology
- 100% Polyurethane foam for ultimate cushioning
- Covered in breathable polyester fabric to wick away moisture
- Replaces existing insole

Sold as a pair.

017282+Size 1-7 (see shoe size table below)

Shoe size						
1	2	3	4	5	6	7
35-37	38-40	41	42	43	44-45	46-48

2) Heel Pads

Ideal application

Ideally suited for **all** shock absorption sport & activities

Features & benefits

- Convenient and lightweight
- Suitable for all sports footwear
- Helps to relieve calfs strain and achilles tendon injuries
